Strategy

The Fund continued to adjust its investment strategy to the following developments that are impacting the U.S.; undocumented immigrants flood southern border; violent crime is surging; ransomware cyberattacks are on the rise; China is expanding its influence globally, and questionable government policies are starting to take hold that are hostile to American founding principles. These economic, social and political events greatly concern the Fund. Sales of common stocks were made to purchase four new companies (DG, GNRC, LRCX, and RGLD). See above sections, "Sales" and "Purchases". DG is a discount retailer in the United States. GNRC designs and manufactures stationary, portable and mobile generators for residential, commercial, and industrial customers. LRCX is a supplier of wafer fabrication equipment and services which are used by the semiconductor industry to build faster and smaller performing devices that are used in mobile phones, personal computers, automotive vehicles and other electronic products. RGLD finances and invests in the mining of gold, silver, copper, and other metals and receives royalties and precious metals during the various stages of mining projects.

DG, GNRC, and LRCX have low debt, large amounts of cash assets, and managements that have a good track record in growing net profits and efficiently reinvesting retained earnings. RGLD has similar characteristics and may to some degree safeguard our portfolio against a weak U.S. dollar as the federal government continues to spend lavishly and increase its indebtedness.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021 (UNAUDITED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: NorthQuest Capital Fund, Inc. (the “Fund”) was incorporated on January 3, 2001 in New Jersey and commenced investment operations January 15, 2002. The Fund is registered as an open-end, non-diversified management investment company under the Investment Company Act of 1940, as amended, and its shares are registered under the Securities Act of 1933.

The Fund's investment objective is to seek long-term capital appreciation and to secondarily earn dividend income.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements. The Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to investment companies.

Security Valuation: All investments in securities are recorded at their estimated fair value, as described in Note 2.

Federal Income Taxes: The Fund makes no provision for federal income or excise tax. The Fund intends to qualify each year as a “regulated investment company” (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of their taxable income. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that they will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense. Therefore, no federal income tax or excise provision is required.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by tax authorities. Management has analyzed the Fund's tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2017-2019) or expected to be taken in the Fund's 2020 tax returns. The Fund identifies their major tax jurisdiction as U.S. Federal and state of New Jersey, however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six months ended June 30, 2021, the Fund did not incur any interest or penalties.

NORTHQUEST CAPITAL FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2021 (UNAUDITED)

Distributions to Shareholders: The Fund intends to distribute to its shareholders substantially all of its net realized capital gains and net investment income, if any, annually.

Other: The Fund follows industry practice and records security transactions on the trade date. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis.

Cash and Cash Equivalents: The Fund maintains its cash in an account at a custodian bank, which, at times, may exceed federally insured limits. The Fund has not experienced any losses in such account and believes it is not exposed to any significant credit risk on its cash deposits.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Subsequent events: Management has evaluated subsequent events through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

2. SECURITIES VALUATIONS

Processes and Structure

The Fund's Board of Directors have adopted guidelines for valuing securities including in circumstances in which market quotes are not readily available and has delegated to the Advisor the responsibility for determining fair value prices, subject to review by the Board of Directors.

Hierarchy of Fair Value Inputs

The Fund utilizes various methods to measure the fair value of most of their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The three levels of inputs are as follows:

- *Level 1.* Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- *Level 2.* Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar

NORTHQUEST CAPITAL FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2021 (UNAUDITED)

instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

- *Level 3.* Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Value Measurements

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stocks). Securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, Exchange Traded Funds, and the movement of the certain indexes of securities based on a statistical analysis of the historical relationship and that are categorized in level 2.

Short term investments. Short term investments are valued using amortized cost, which approximates fair value. These securities will be categorized in Level 1 of the fair value hierarchy.

NORTHQUEST CAPITAL FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2021 (UNAUDITED)

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of June 30, 2021:

<i>Categories</i>	Financial Instruments—Assets			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Fair Value</i>
Common Stocks *	\$ 7,082,043	\$ -	\$ -	\$ 7,082,043

	<u>\$ 7,171,146</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,171,146</u>

* Industry classifications for these categories are detailed in the Schedule of Investments.

The Fund did not hold any Level 3 assets during the six months ended June 30, 2021. The Fund did not hold any derivative instruments at any time during the six months ended June 30, 2021. There were no significant transfers into or out of Level 1 or Level 2 during the period. It is the Fund's policy to recognize transfers into and out of Level 1 and Level 2 at the end of the reporting period.

3. INVESTMENT ADVISORY AGREEMENT AND OTHER RELATED TRANSACTIONS

The Fund has an investment advisory agreement with Emerald Research Corporation ("the Advisor"), whereby the Advisor receives a fee of 1% per year on the net assets of the Fund. All fees are computed on the average daily closing net assets of the Fund and are payable monthly. The investment advisory fee earned by the Advisor for the six months ended June 30, 2021 was \$31,513. The Advisor has contractually agreed to decrease the investment advisory fee or, if necessary, to reimburse the Fund for expenses if and to the extent that the Fund's aggregate annual operating expenses exceed 1.79% of the Fund's daily average net assets until August 10, 2021. The Fund owed the Advisor \$5,715 at June 30, 2021 for advisory fees. There was no reimbursement for the six months ended June 30, 2021.

Mr. Peter J. Lencki is President of the Advisor and is also President of the Fund.

4. CAPITAL SHARE TRANSACTIONS

As of June 30, 2021, there were 500,000,000 shares of \$0.001 par value capital stock authorized. Total capital stock and paid-in capital as of June 30, 2021 amounted to \$3,396,323. Transactions in capital for the six months ended June 30, 2021 and the year ended December 31, 2020 were as follows:

5. INVESTMENT TRANSACTIONS

For the six months ended June 30, 2021, purchases and sales of investment securities other than short-term investments aggregated \$1,182,934 and \$865,960, respectively.

6. TAX MATTERS

Income and long-term capital gain distributions are determined in accordance with Federal income tax regulations, which may differ from the character of net investment income or net realized gains presented in these financial statements in accordance with U.S. GAAP.

The tax character of distributions paid for the years ended December 31, 2020 and 2019 were as follows:

	<u>2020</u>	<u>2019</u>
Long-term capital gain	\$606,001	\$154,054

For the six months ended June 30, 2021, the Fund did not pay any distributions.

The Fund's distributable earnings on a tax basis are determined only at the end of each fiscal year. As of December 31, 2020, the Fund's most recent fiscal year-end, the components of distributable earnings on a tax basis were as follows:

Unrealized Appreciation	\$ <u>2,820,585</u>
Total Distributable Earnings, Net	\$ <u>2,820,585</u>

As of December 31, 2020, the tax basis components of unrealized appreciation (depreciation) and cost of investments were as follows:

Gross tax appreciation of investments	\$ 2,820,585
Gross tax depreciation of investments	<u>\$ -</u>
Net tax appreciation of investments	<u>\$ 2,820,585</u>
Federal tax cost of investments, including short-term investments	<u>\$ 3,043,236</u>

7. CONTROL AND OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund under Section 2(a)(9) of the Investment Company Act of 1940. As of June 30, 2021, the Portfolio manager and immediate family members, in aggregate, owned approximately 38% of the shares of the Fund.

JUNE 30, 2021 (UNAUDITED)

8. INDEMNIFICATIONS

In the normal course of business, the Fund enters into contracts that contain general indemnification to other parties. The Fund's maximum exposure under these contracts is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The Fund expects the risk of loss to be remote.

9. MARKET RISK

Overall market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions and depressions, or other events could have a significant impact on the Fund and its investments and could result in increased premiums or discounts to the Fund's net asset value, and may impair market liquidity, thereby increasing liquidity risk. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now been detected globally. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

Expense Example

As a shareholder of the NorthQuest Capital Fund, you incur ongoing costs which typically consist of management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire six-month period, January 1, 2021 through June 30, 2021.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value	Ending Account Value	Expenses Paid During the Period*
	<u>January 1, 2021</u>	<u>June 30, 2021</u>	<u>January 1, 2021 to June 30, 2021</u>
Actual	\$1,000.00	\$1,158.83	\$8.24
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,017.16	\$7.70

* Expenses are equal to the Fund's annualized expense ratio of 1.54%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

LIQUIDITY RISK MANAGEMENT PROGRAM

The Fund has adopted and implemented a Liquidity Risk Program (the “LRM Program”) as required by Rule 22e-4 under the Investment Act of 1940. The LRM Program is to assess and manage the risk that the Fund could not meet requests to redeem Fund shares without significant dilution of the remaining investor interests in the Fund. The Fund considers a variety of factors such as the Fund’s long-term investment strategy, liquidity classifications of portfolio investments, and holdings of cash and cash equivalents during normal and unprecedented stressful stock market conditions as part of the management and assessment of liquidity risk.

The Board approved an Independent Director to act as the Program Administrator to oversee the LRM Program. On December 4, 2020, the Board reviewed the Program Administrator’s annual report. During the period covered by the report, the Fund maintained a high level of liquidity by being primarily invested in “highly liquid investments”. During the cover period, there were no liquidity events that impacted the Fund’s ability to meet redemptions in a timely manner.
